

Ten Commandments

Brought to you by Uncle Sam and your rulers, describing the proper attitude of citizen-serfs to the government which rules them.

1. **You shall have no other gods before me.**
No dual citizenship.
Foreign travel by permission only.
2. **You shall make no idols.**
Don't fly foreign flags or question your ruler.
3. **You shall not take the name of the US in vain.**
Don't criticize your government or wise rulers.
4. **Keep patriotic holidays holy.**
5. **Honor your State's forefathers and current rulers.**
6. **You shall not murder.**
Unless I tell you to. Then it's perfectly okay.
7. **You shall not commit adultery.**
But fucking foreigners for patriotic reasons is okay.
8. **You shall not steal.**
Call it "taxation" when I do it. Or eminent domain.
9. **You shall not bear false witness.**
But if it is someone you don't like, lay it on.
10. **You shall not covet.**
Unless it is other's oil, land, or rare-earth minerals.
